FYI _ Simplot M/47/0007 Task 7239

Thanks April, we will make the fix and send out an addendum , and get going on the field work preparation.

Michael R. Murray, Ph.D.

Subject: Utah DWR comments regarding the Simplot Sage Grouse report M/47/0007 Task 7239

Hello Mr. Murray,

The Division has forwarded along the Sage Grouse report to the UDWR Vernal field office for review and comment. Miles Hanberg of UDWR reviewed the report and made the following comment:

On the main document, page 6, lines 1 and 2 should read"vernal mine in the Uintah Sage Grouse Management Area" to correctly identify the SGMA they are talking about. Otherwise everything looked good to us and we do not have any concerns with the documents at this time. Thank you for soliciting our input and we look forward to being able to work with you in the future.

Please make this minor clarification on the report and submit the corrected page as an amendment.

Thank you.

April
